Dear Site Manager Golden,

As Orange County Supervisor, Third District, encompassing the City of Irvine, I am extending my strongest support for an Orange County bid to become the home of Amazon's second North American headquarters.

With a population of over 3.2 million diverse residents in our metropolitan area, Orange County offers the resources that has already ignited a thriving tech business climate in Irvine that currently includes an Amazon warehouse location. Our region features some of the finest beach communities and open space areas in the nation and I am certain Orange County will be an ideal location for Amazon's continuing growth with an emphasis on commerce and quality of life.

With my experience as an elected official, including two terms as a California State Assemblyman, it is my intent to take an active role in facilitating your process through legislative concerns at the County and State level. Please don't hesitate to contact me for further discussion or any help you need as this search process continues. Thank you for your time and consideration.

Sincerely,

Todd Spitzer,
Orange County Supervisor, Third District
